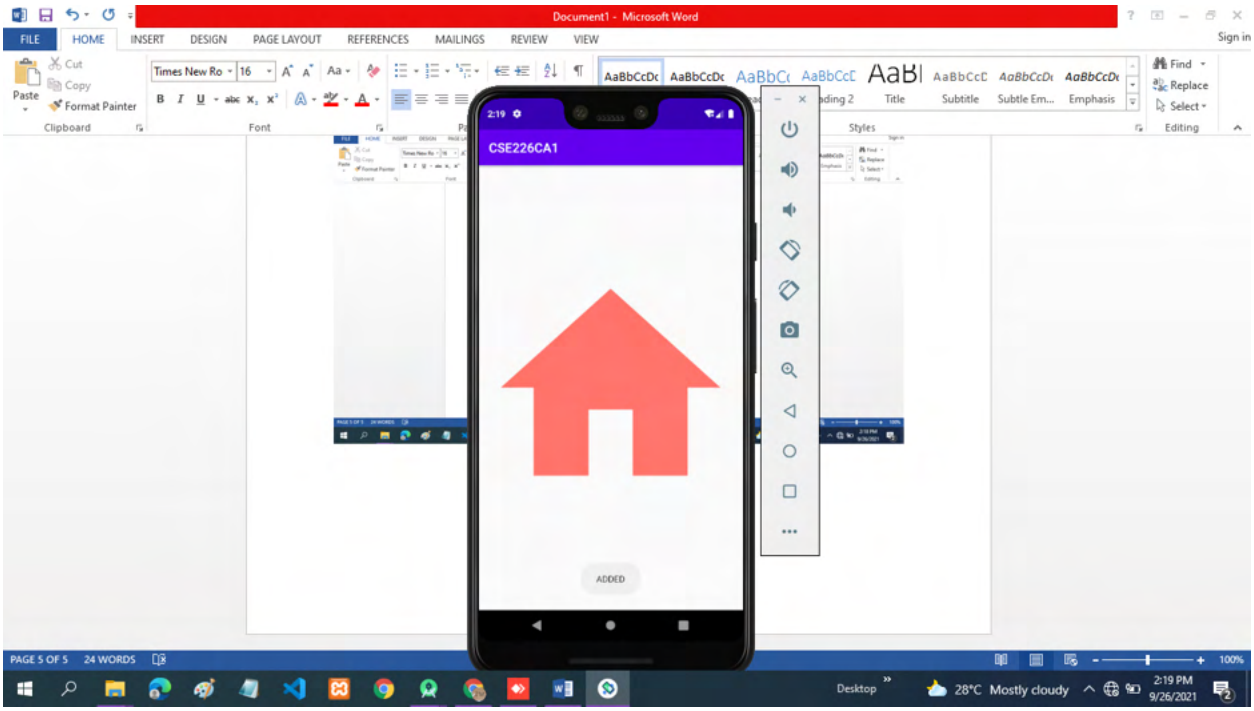
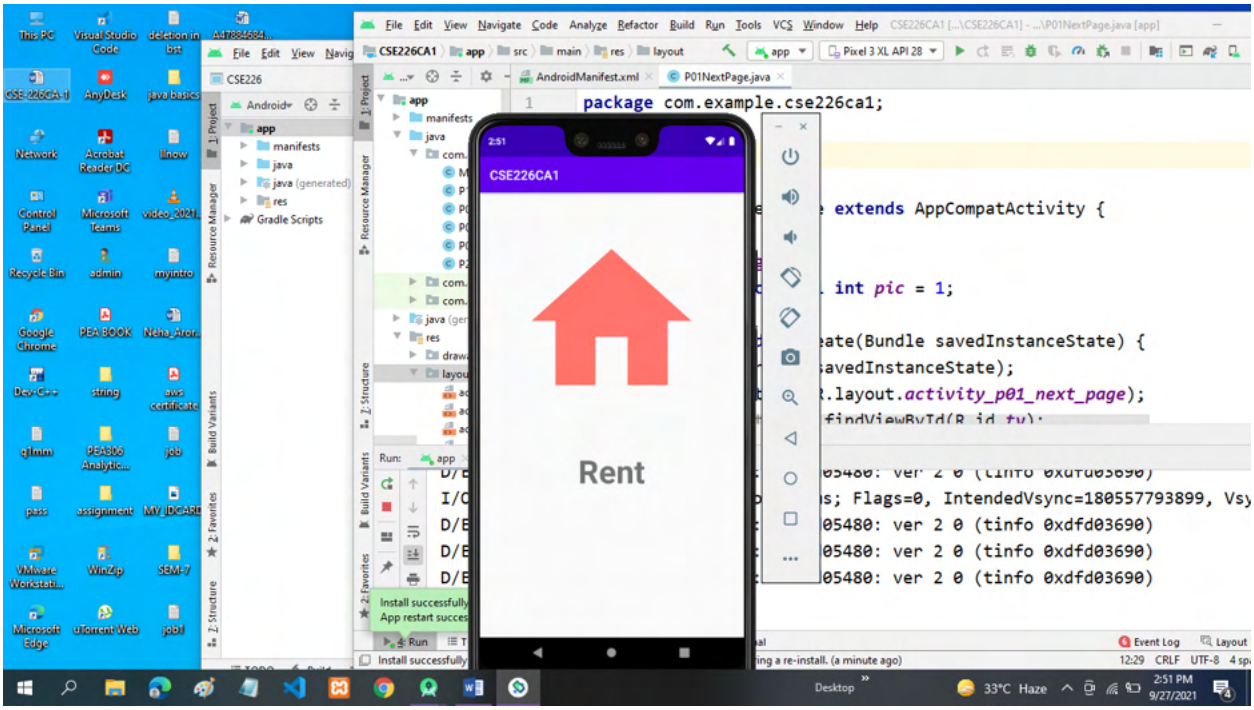
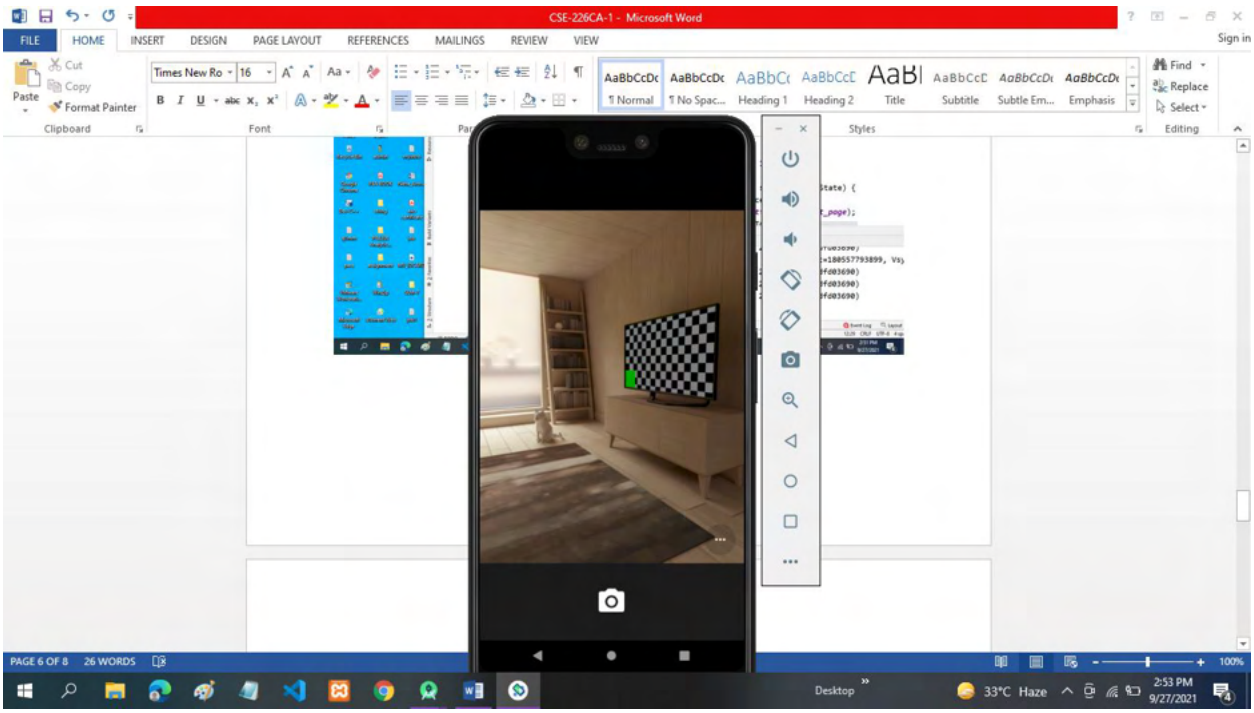
2)Next Page open ,Image view is shown ,Toast message is also shown and that item that we clicked is also shown

Next page is open and some event is perform on that activity

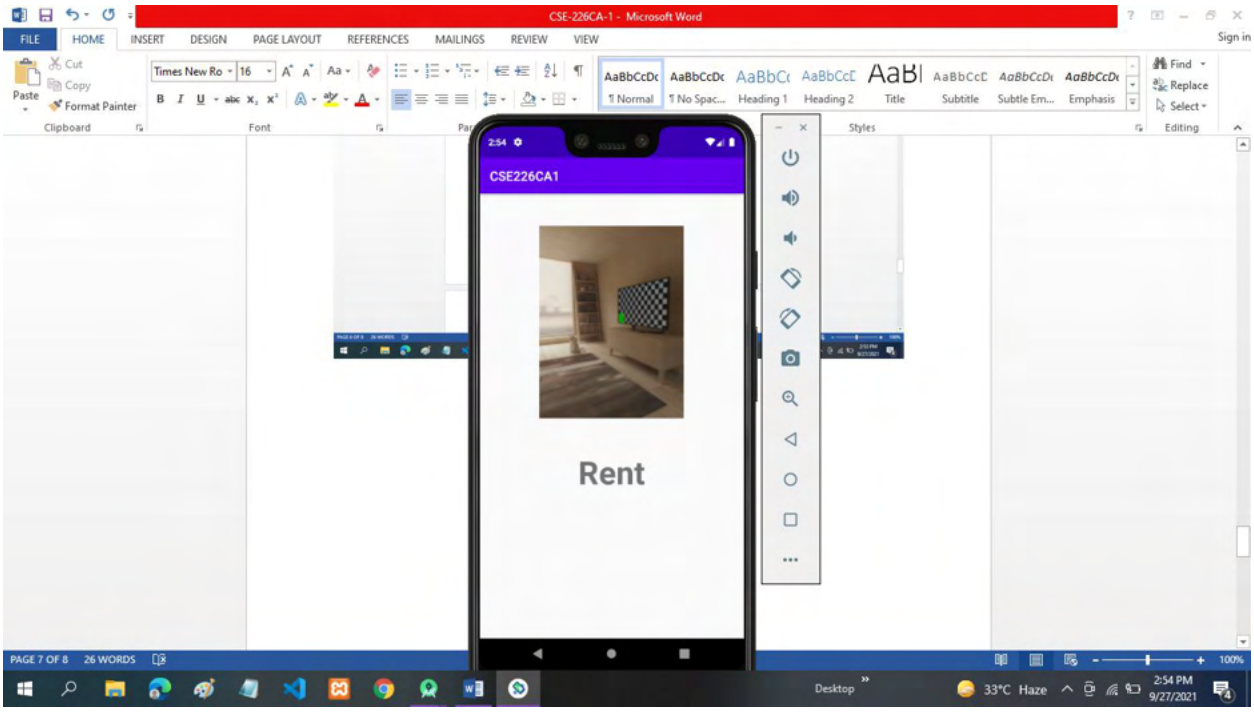




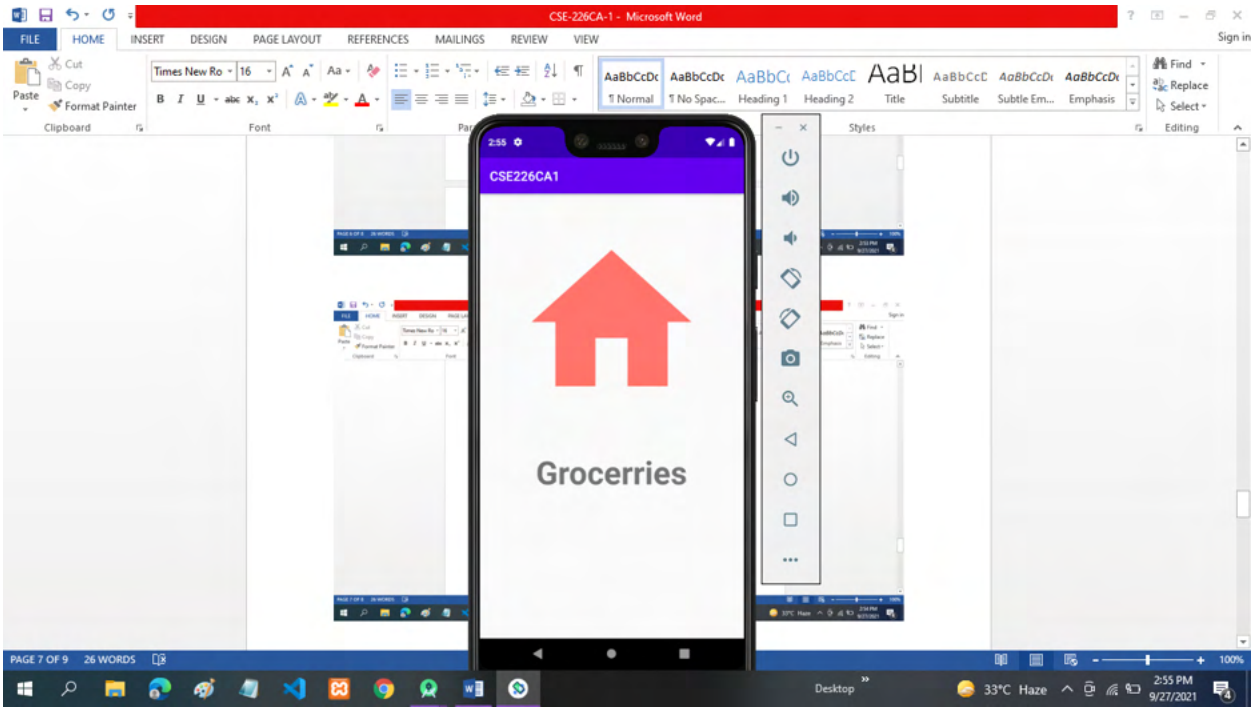
3) If I clicked on image view then camera is open then I click the image and set the image



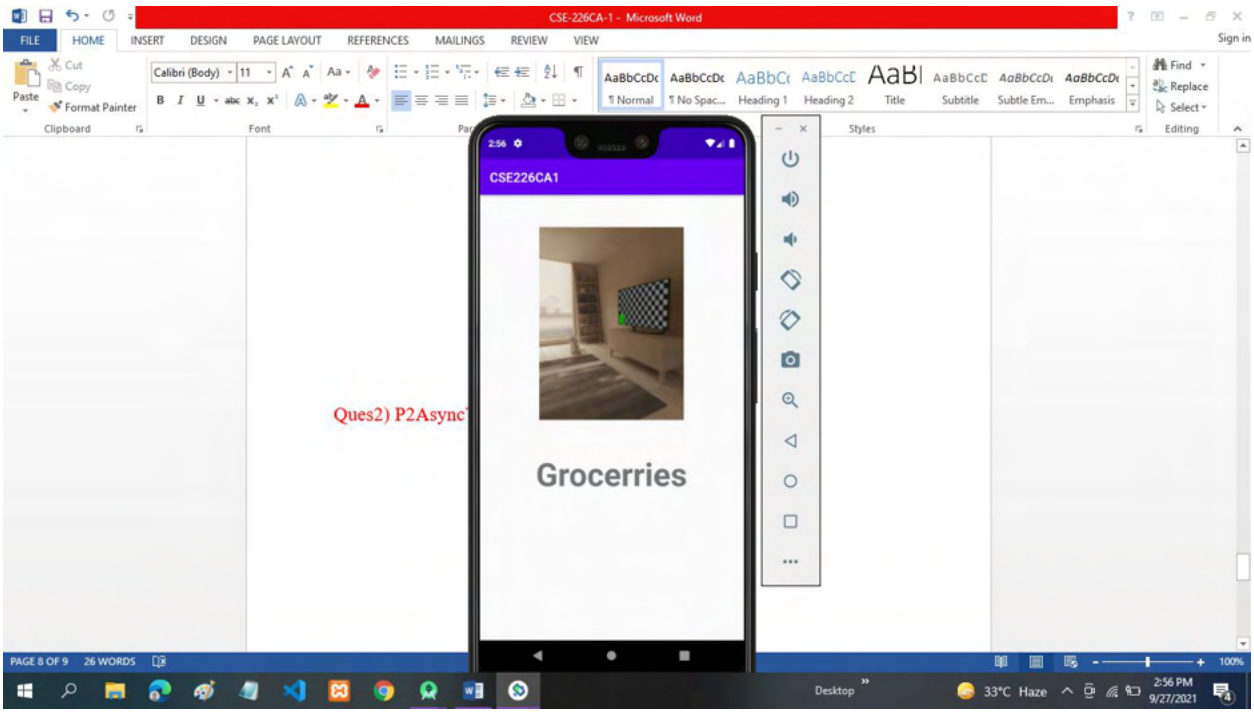
4) The image is set that we clicked and below that the item is set that we clicked



If I clicked on Grocerries then next page will open and image view and that text is shown and toast is also shown : name : added

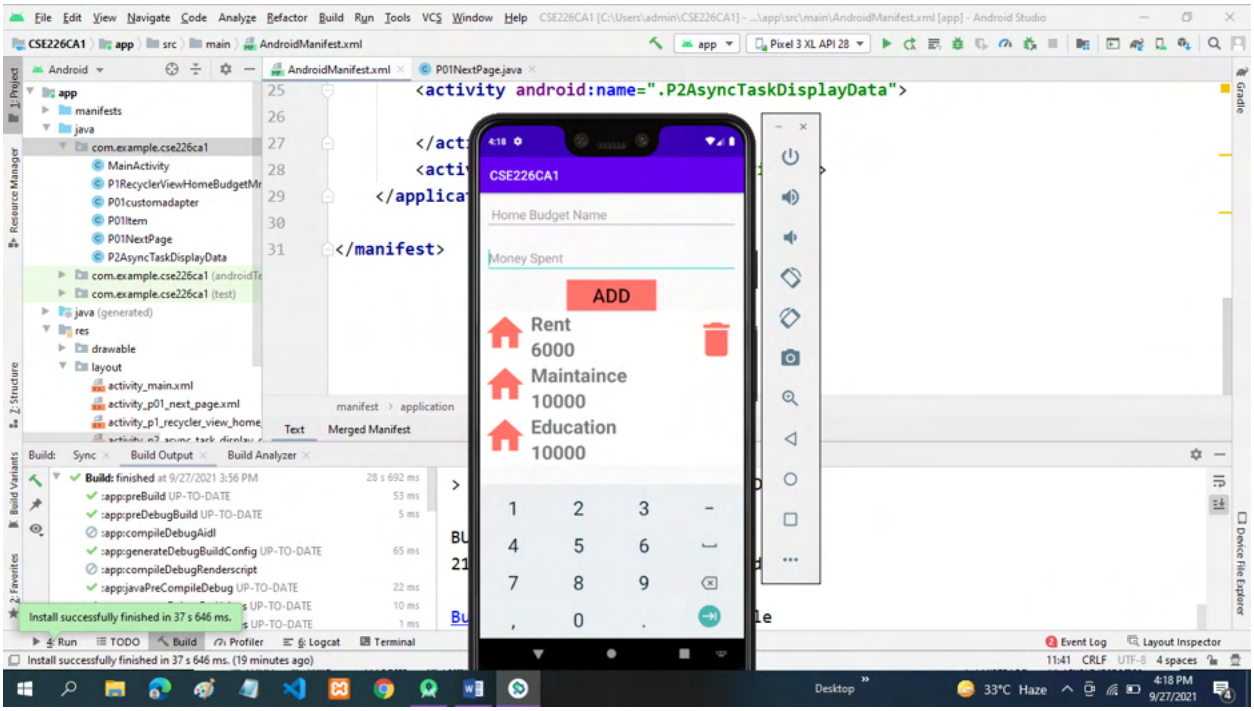


If I clicked on image view then again camera is open ,I click the image, set the image then the image is set over here and text that we clicked is also set

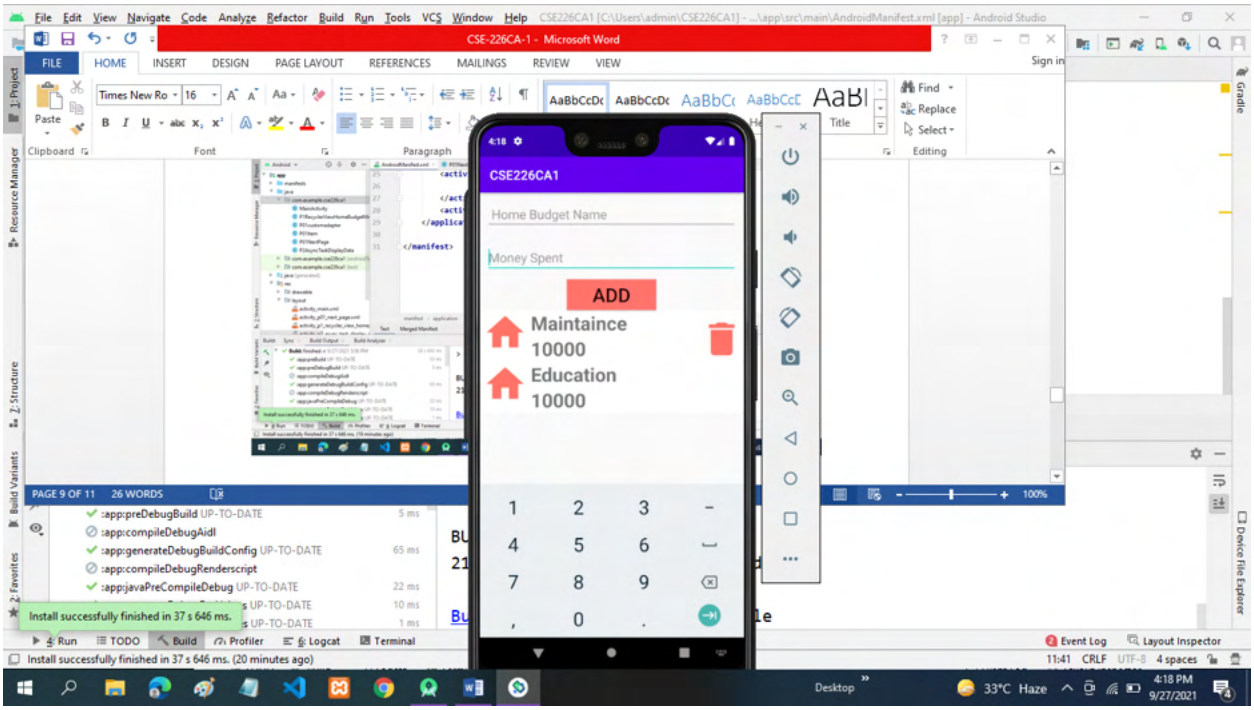


II)If I long pressed on any item that we want to delete then deleted icon is shown on right hand side and if I clicked on that icon then that item is deleted.

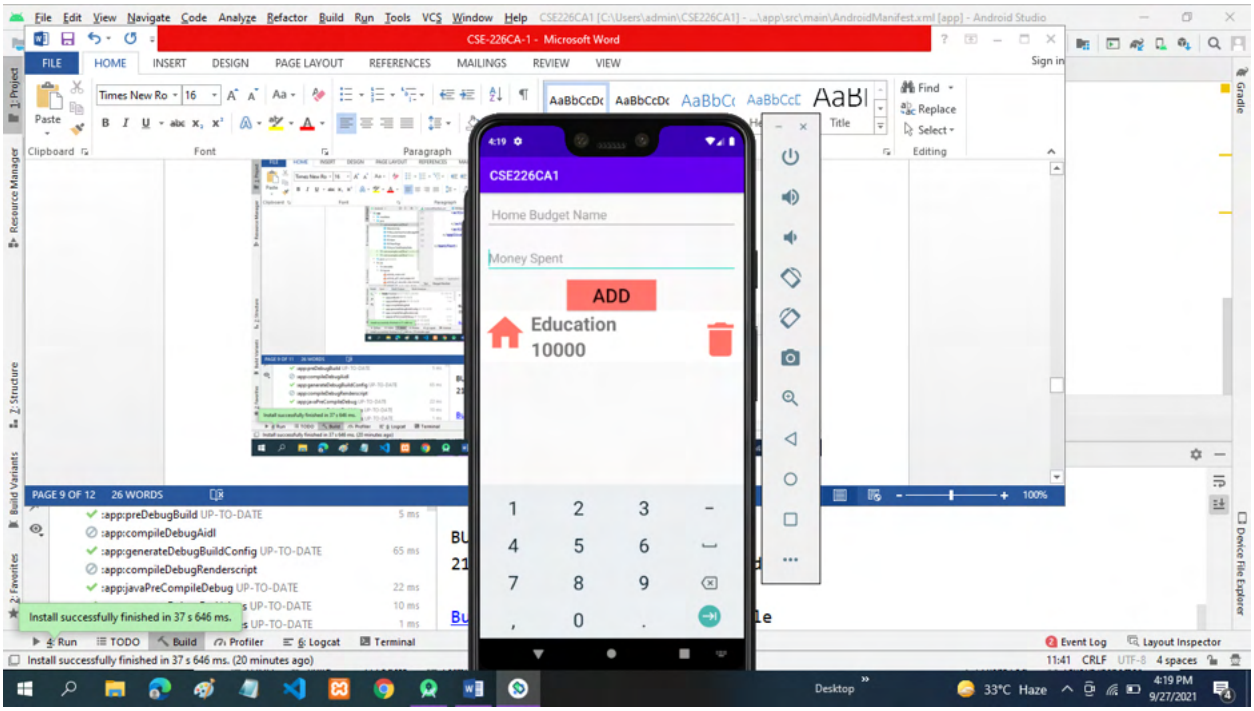
i)Rent is deleted



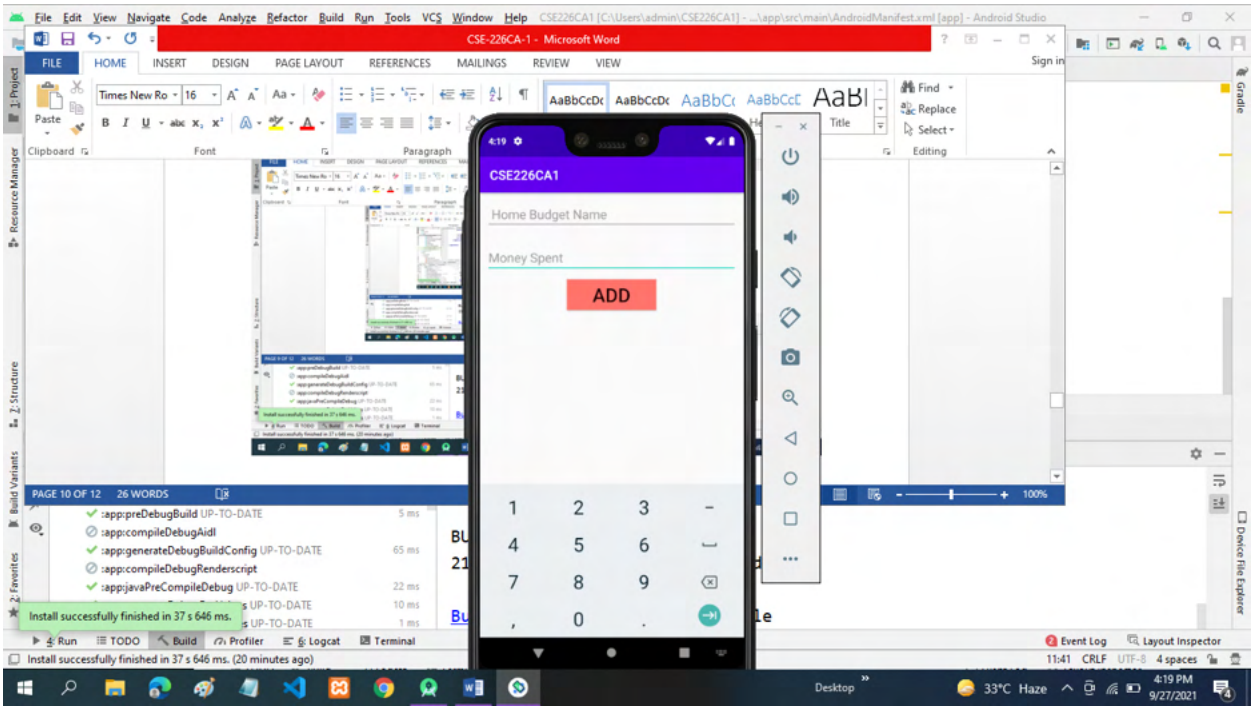
ii)Maintaince is deleted



iii)Education is deleted

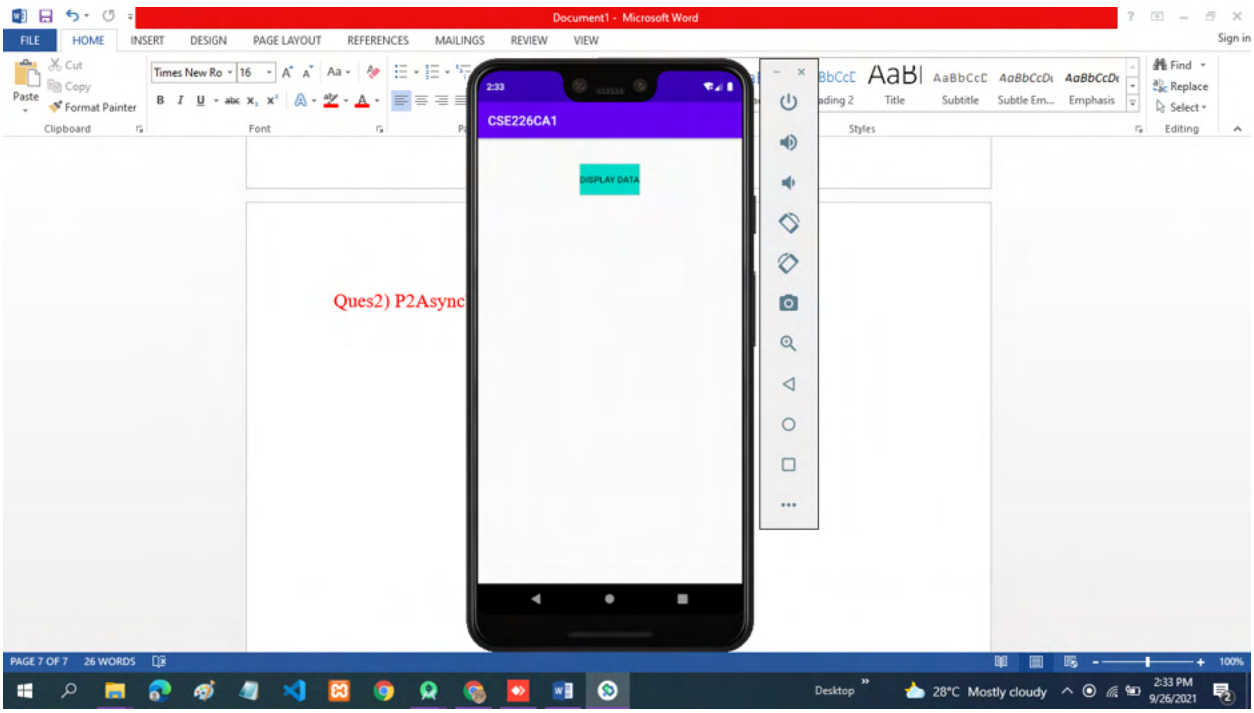


☺ So this is all about my Home Budget Management System☺

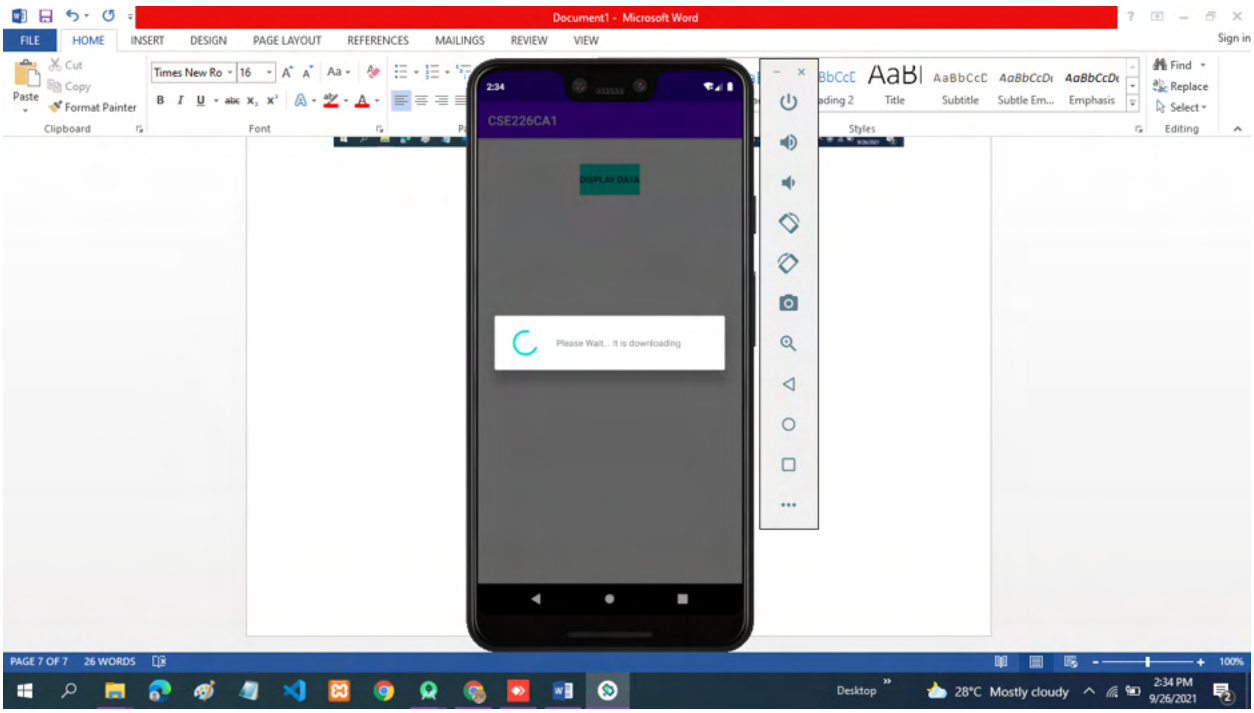


Ques2) P2AsyncTaskDisplayData

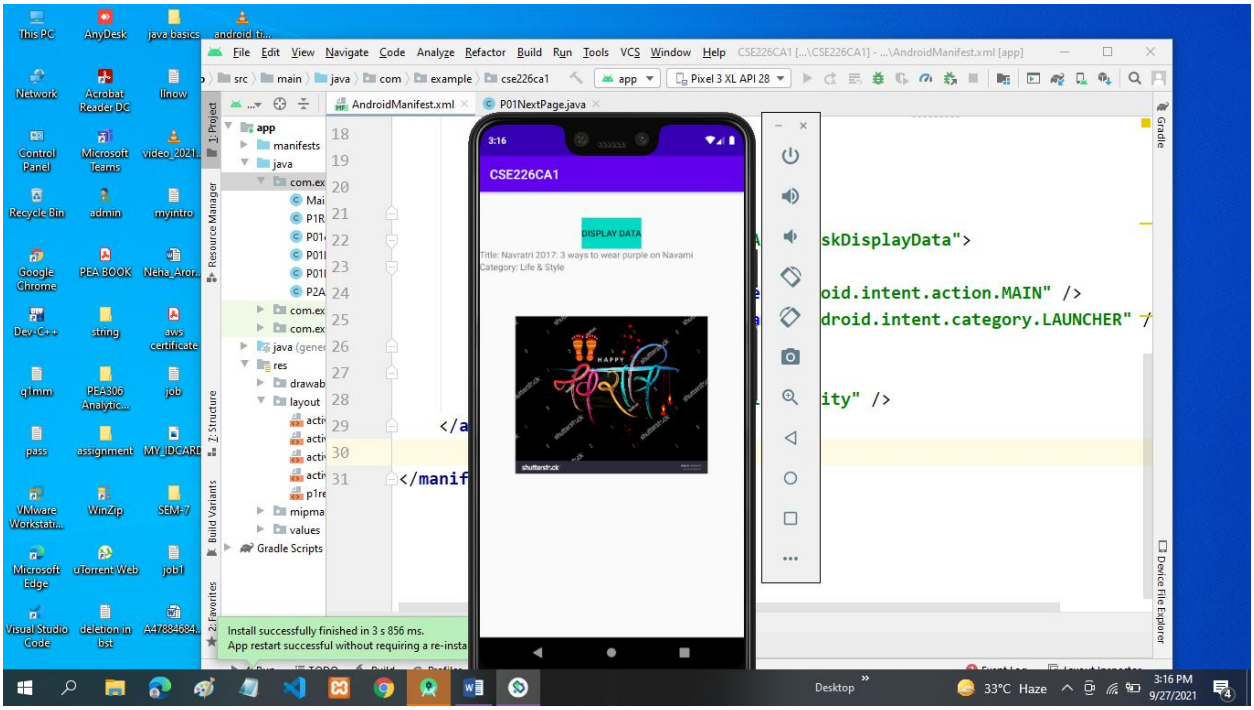
1) Display Data button is shown



2)If I click on display data then a Progress Bar is shown



3) After the Progress Bar then the text is shown with the image in the middle.



☺So this is all about my Async Task ☺
